Introduction

This Guide is designed to give a walkthrough of how to install and get started using Writeback.

NB deployment option for Qloud Cover Writeback local deployment is coming soon – Contact Qloud Cover [here](#) for inquiries!

Installation Guide

The following is a guide on how to install Qloud Cover Writeback. Choose the appropriate section that fits the version of Qlik you are using.

Using Qlik Cloud

Prerequisites

The following is a list of prerequisites for using the installing Qloud Cover Writeback Tool:

- Cloud Cover Writeback Extension.
- Admin access in Qlik Cloud.

Install the extension in Qlik Cloud

1. **If not already done** download the extension at <https://writeback.qloudcover.com/>
2. Install the extension on the Qlik Cloud Tenants(s). See Qlik Cloud Documentation for how to install extensions:
 - https://help.qlik.com/en-US/cloud-services/Subsystems/Hub/Content/Sense_Hub/Admin/mc-extensions.htm

Add Content Security Policy

1. Add the Content Security Policy to authenticate communication from Qloud Cover Writeback Tool to the Qloud Cover Writeback Extension. See the Qlik Cloud Documentation for how to add a Content Security Policy:
 - https://help.qlik.com/en-US/cloud-services/Subsystems/Hub/Content/Sense_Hub/Admin/mc-administer-content-security-policy.htm
 - The policy must contain the following:
 - **Origin:** writeback.qloudcover.com
 - **Source:** connect-src
 - See below for an example:

| | | | | | |
|--------------------------|-----------------------|--------------------------|-------------|------------|------------|
| <input type="checkbox"/> | Qloud Cover Writeback | writeback.qloudcover.com | connect-src | 05/29/2024 | 05/28/2024 |
|--------------------------|-----------------------|--------------------------|-------------|------------|------------|

Using Qlik Sense

Prerequisites

The following is a list of prerequisites for using the installing Qcloud Cover Writeback Tool:

- Cloud Cover Writeback Extension.
- Access to install extension on Qlik Sense

Install the extension in Qlik Sense

1. **If not already done** download the extension at <https://writeback.qcloudcover.com/>
2. Install the extension on the Qlik Cloud Tenants(s). See Qlik Sense Documentation for how to install extensions:
 - [https://help.qlik.com/en-US/sense-developer/February2024/Subsystems/Extensions/Content/Sense Extensions/Howtos/deploy-extensions.htm](https://help.qlik.com/en-US/sense-developer/February2024/Subsystems/Extensions/Content/Sense%20Extensions/Howtos/deploy-extensions.htm)
